PROJECTS

ResumeIQ | *Node.js, Express.js, MongoDB, Generative AI API* Live Demo
- Built and deployed an AI resume analyzer that parses PDF/DOCX CVs and generates interview questions with CV scoring.
- Company-specific interview prep using job descriptions, with a CV-match score out of 100 and skill-gap insights.
- Secured with JWT and Google OAuth; used SHA-256 CV hashing to reuse saved results and skip repeat AI calls.

CollabNotes | *Node.js, Express.js, MongoDB, JavaScript* Live Demo
- Built and deployed a full-stack collaborative notes app on Render with MongoDB, folders, search, and attachments.
- Secured with 2 authentication methods (JWT, Google OAuth); designed RESTful APIs for user-specific notes.
- Added public/private sharing, favourites, likes, and a trash and restore workflow to recover deleted notes.

TaskFlow | *HTML, CSS, JavaScript, Node.js, Express.js, MongoDB* Live Demo
- Designed and developed a full-stack task management and productivity platform covering the complete task lifecycle.
- Created an interactive Kanban board and calendar-based scheduling to organize and plan tasks.
- Integrated 4 productivity features: recurring tasks, reminders, a focus timer, and analytics.
- Added data backup and export functionality so users can keep their data safe.

ExpenseTracker | *Node.js, Express.js, MongoDB* Live Demo
- Developed a full-stack expense management application with secure user authentication and transaction tracking.
- Implemented income and expense management, transaction editing, and a recycle bin for deleted records.
- Provided dashboard summaries and financial analytics to help users monitor their spending.

EXPERIENCE

Arch Technologies – *Web Development Intern (Remote)* 1 Nov 2026 – Present
- Selected for an 8-week remote Web Development Internship and Training Program with hands-on learning.
- Applying web development skills (HTML, CSS, JavaScript, Node.js, MongoDB) to real assigned tasks and projects.
- .Following team guidelines and delivering all allocated work to the best of my ability.

CodeNova – *Full Stack Development Intern (Remote)* 10 Oct 2026 – 6 Nov 2026
- Selected for a 4-week, project-based remote internship focused on full-stack web development, with practical, hands-on tasks.
- Technologies used: HTML, CSS, Node.js, MongoDB, and Vanilla JavaScript.
- Projects built: CollabNotes and ExpenseTracker, both are full-stack and deployed.

InAmigos AI – *Frontend Developer Intern (Remote)* Sep 2026
- Created and refined responsive web interfaces using HTML, CSS, and JavaScript.
- Gained hands-on experience with real-world web development workflows and professional project practices.
