SUMMARY

Third-year Computer Science undergraduate with hands-on experience building responsive, user-focused web applications using HTML, CSS, and JavaScript. Skilled in developing and deploying full-stack applications with Node.js, Express.js, and MongoDB, including secure authentication and RESTful API design. Seeking an opportunity to grow my frontend and full-stack skills in a collaborative engineering team.

EDUCATION

MCKV Institute of Engineering (MAKAUT) Pursuing – 3rd Year
B.Tech in Computer Science and Engineering West Bengal, India
Class XII: 76% **Class X:** 84%
Relevant Coursework: Data Structures & Algorithms, Object-Oriented Programming, Operating Systems, Computer Architecture, Machine Learning

TECHNICAL SKILLS

Languages: Python, Java, C
Frontend: HTML5, CSS3, JavaScript (ES6+), DOM Manipulation, Web Storage
Backend & Database: Node.js, Express.js, RESTful APIs, MongoDB, Mongoose
Authentication: JWT, Google OAuth
Tools & Platforms: Git, GitHub, VS Code, Render

PROJECTS

CollabNotes | *Node.js, Express.js, MongoDB, JavaScript* Live Demo
- Built and deployed a responsive full-stack collaborative notes platform with MongoDB persistence, hosted on Render.
- Implemented secure authentication using JWT and Google OAuth, and designed RESTful APIs for user-specific note management.
- Developed CRUD operations, folders, public/private sharing, search, favourites, likes, and file attachments.
- Added a trash and restore workflow to allow recovery of deleted notes.

TaskFlow | *HTML, CSS, JavaScript, Node.js, Express.js, MongoDB* Live Demo
- Designed and developed a full-stack task management and productivity platform covering the complete task lifecycle.
- Built an interactive Kanban board and calendar-based scheduling to organize and plan tasks.
- Implemented recurring tasks, reminders, a focus timer, and productivity analytics.
- Added data backup and export functionality so users can keep their data safe.

ExpenseTracker | *Node.js, Express.js, MongoDB, Mongoose* Live Demo
- Developed a full-stack expense management application with secure user authentication and transaction tracking.
- Implemented income and expense management, transaction editing, and a trash and restore workflow.
- Built dashboard summaries and financial analytics to help users monitor their spending.

EXPERIENCE

CodeNova – *Full Stack Development Intern* Oct 2026 – Present
Remote
- Selected for a 4-week, project-based remote internship focused on full-stack web development.
- Contributing to assigned projects, completing development tasks, and following documentation guidelines.
- Collaborating with the team to deliver work within project deadlines.

InAmigos AI – *Frontend Developer Intern* Sep 2026
- Built and improved responsive web interfaces using HTML, CSS, and JavaScript.
- Gained hands-on experience with real-world web development workflows and professional project practices.

CERTIFICATIONS & ACTIVITIES

- **Fundamentals of Machine Learning (CS207)** – Saylor University, 98% grade Oct 2026
- **Analyze Text with Azure Language in Foundry Tools** – Microsoft Oct 2026
- **Introduction to HTML** and **Introduction to CSS** May 2026
- **Hackathons:** Participated in 2 hackathons and qualified through the college-level round.
- **Career Interests:** Frontend Development, React.js, Backend Development, Full-Stack Development

LANGUAGES & SOFT SKILLS

Languages: English, Hindi, Bengali
Soft Skills: Problem Solving, Teamwork & Collaboration, Communication, Adaptability, Time Management
